4 SELECTION CRITERIA

4 SELECTION CRITERIA

From a thematic point of view, films promoting coexistence, respect, environmental care, local cultures, inclusion, acceptance of differences, identity, participation and opinion of children, among others related to the pillars of education according to UNESCO and the Universal Declaration of Human Rights and the Convention on the Rights of the Child will be privilege.

From a narrative and audiovisual treatment point of view, films that consider children as a participative and opining audience, that promote their integral development as people and that propose innovations in the way of bringing audiovisual content to children as increasingly diverse and active audiences will be privileged.

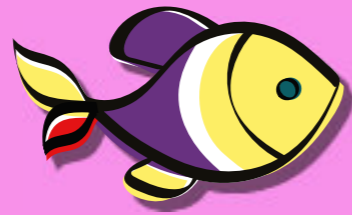

4 SELECTION CRITERIA

Only films with good technical quality will be considered, both in image and sound, which allows a correct projection in a movie theater.

Special attention will be paid to ensuring that the audiovisual works not only have children and/or adolescents as protagonists or raise themes that are of interest to them, but that their narrative treatment, duration, techniques and other aspects are relevant to the target audience that they intend to reach.
